

PRESIDENT IS
HAPPY GRANDPAFirst Grandchild, and a Son
at That, Pleases Chief
Who Had Only Girls.

Washington, D. C., Jan. 18.—President Wilson is happy through being a grandfather for the first time. It came about Sunday afternoon at 4:30 o'clock when a son was born at the white house to Mrs. Francis Jones Sayre, the president's daughter. The boy weighed seven and a half pounds. Both he and his mother were reported doing well. The president's face was alight with smiles for hours afterward. He has never had a boy of his own.

The christening is expected to be held at the white house before the return of Mrs. Sayre to her home in Williamsburg, Mass. The baby will probably be named after his grandfather.

Mr. Sayre, who is assistant to the president of Williams college, was not at the white house when his son was born. He arrived there Sunday night.

Mr. and Mrs. Sayre were married at the white house Nov. 25, 1912. After a honeymoon in Europe, they went to Williamsburg to make their home. Mrs. Sayre has been visiting at the white house since Christmas.

WATER POLICY OF
U. S. REVERSEDSecretary Jones Permits Ad-
ditional Diversions from
Upper Rio Grande.

Santa Fe, N. M., Jan. 18.—Assistant secretary of the Interior, A. Jones, has lifted the embargo on the tributaries of the Rio Grande and has set a precedent that ends the fight of a decade of the people of northern New Mexico against the reclamation service and its Rio Grande that has prevented extensive irrigation development in Taos, Rio Arriba, Santa Fe, Sandoval and Bernalillo counties.

On the plea that irrigation projects on the upper Rio Grande and its tributaries would endanger the ability of the government to deliver 6,000 acre feet of water annually to Mexico under the Elephant Butte project, the reclamation service successfully resisted all new irrigation projects covering more than a thousand acres. It did not matter that northern New Mexico residents proved by stream measurements that the water of the tributaries in the country was plentiful and most of the flow of the upper Rio Grande never reached the Elephant Butte dam and that Colorado joined in the protest.

But in a decision just received by state engineer James A. French, assistant secretary of the Interior, Jones reverses this policy in the application of James W. Norsett of Santa Fe for 1250 acre feet of the flow of the Santa Fe river with which a tract of 3000 acres south of Santa Fe is to be reclaimed. The application had been refused in the first instance because of the reclamation service embargo, and the reversal of policy will mean a tremendous development of central and northern New Mexico within the next few years as quite a number of irrigation projects have been held in abeyance all the way from Albuquerque to the Colorado line.

DEFENDER OF PORT ARTHUR
DIES AFTER PARALYSIS

London, Eng., Jan. 18.—As a result of paralysis from which he had suffered for several months, Lt. Gen. Anatole Mikailovitch Stoenkel, commander of the Russian troops at Port Arthur during the Russo-Japanese war, is dead at Petrograd, according to a Reuters Telegram company dispatch.

After he had held out there for months against the furious onslaughts of the Japanese, Stoenkel, in ammunition all but exhausted and his men virtually without food, surrendered the fortress to Gen. Nogai.

For this action he was condemned to death on Feb. 23, 1905, by a court martial. This sentence, however, was commuted by emperor Nicholas to 10 years' imprisonment. He was released from confinement from the fortress of St. Peter and St. Paul the following year by order of emperor Nicholas.

Doll Up As Kidlets**

Wearing "kid" clothes to school, the members of the graduating class and the June senior class of the high school astonished the members of the faculty and their fellow students on seniors' day, Friday.

**DANDRUFFY HEADS
BECOME HAIRLESS**

If you want plenty of thick, beautiful, glossy, wavy hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and destroy every single dandruff and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.—Adv.

Angeles May Be President.
Gen. Felipe Angeles, the Villa commander who Saturday occupied Monterrey, an important center in northern Mexico, has appeared for the immediate sending there of American Red cross supplies, contracted for some weeks ago by Philip C. Hanna, American consul general in Mexico City. Gen. Angeles described the desperate condition of the populace at Monterrey.

Angeles probably will proceed at once to Mexico City to assist Villa in his adjustment of conditions there, he, like Villa, leaving to others the campaign against the Carranza forces, temporarily. Angeles has been mentioned prominently as a probable successor to Gutierrez.
